Chapter 534 The Vow of the Doors

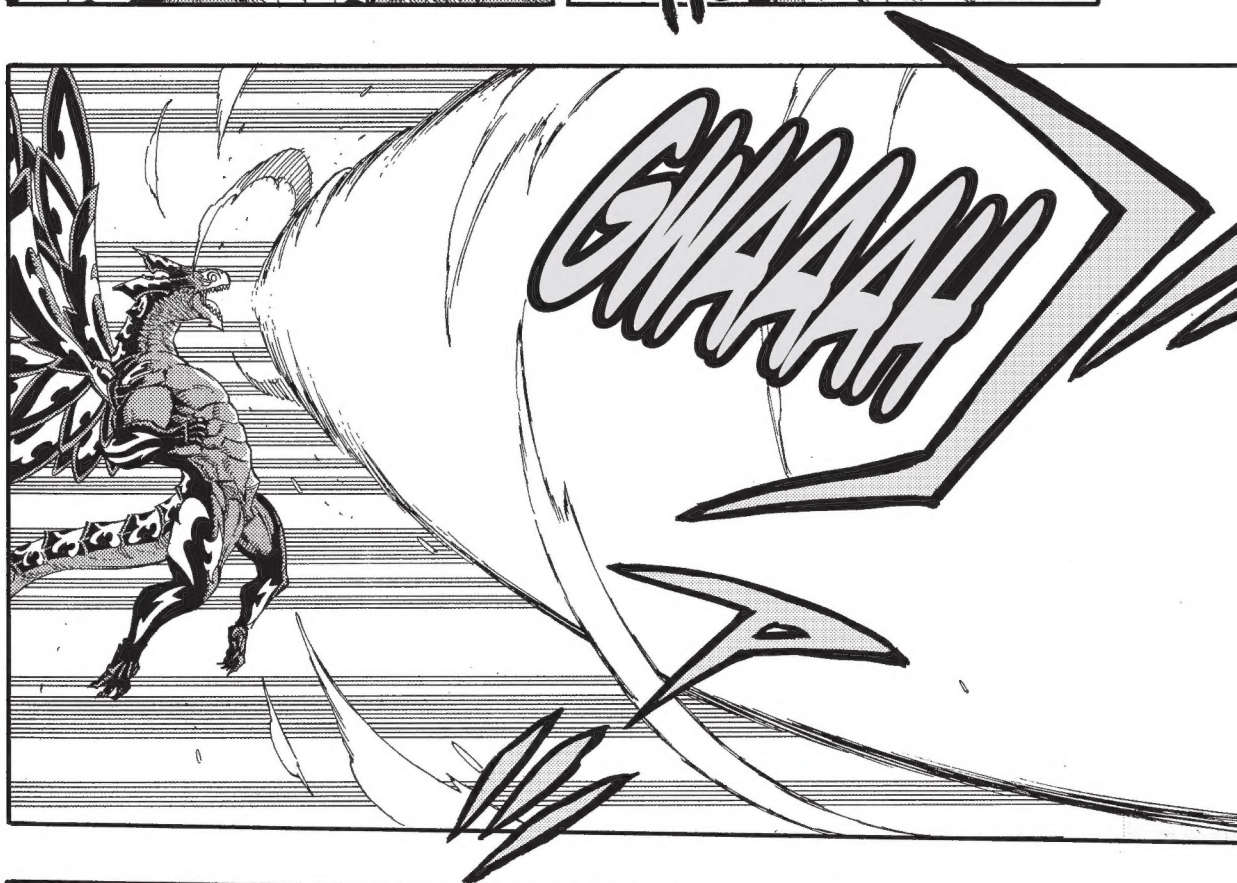

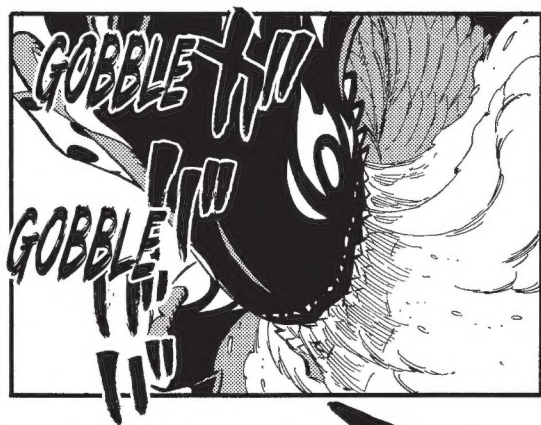

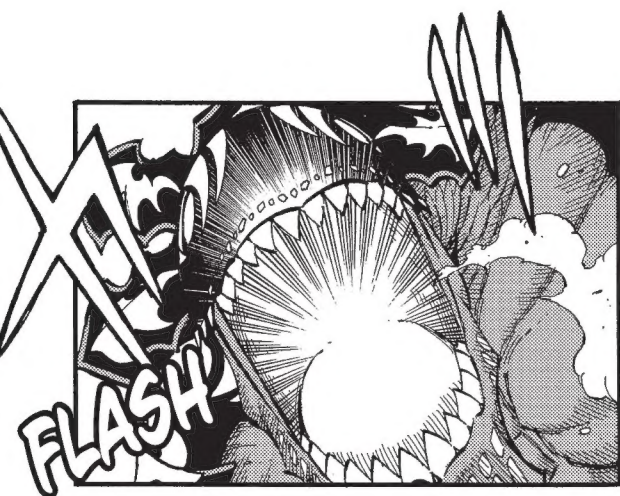

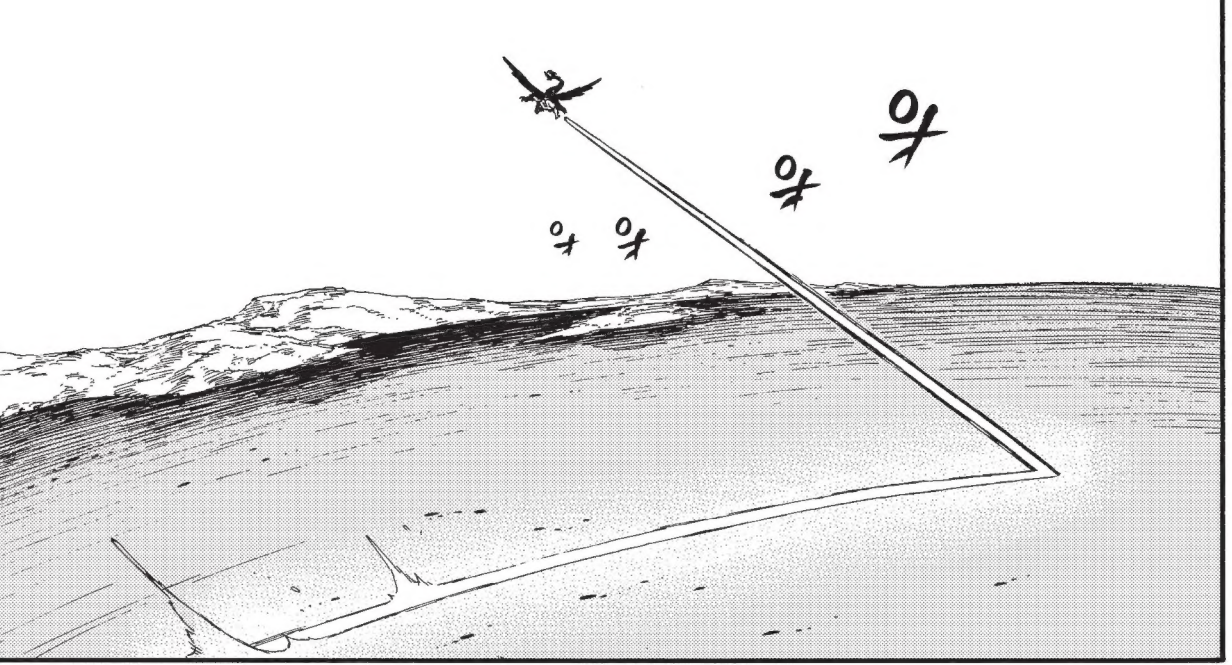

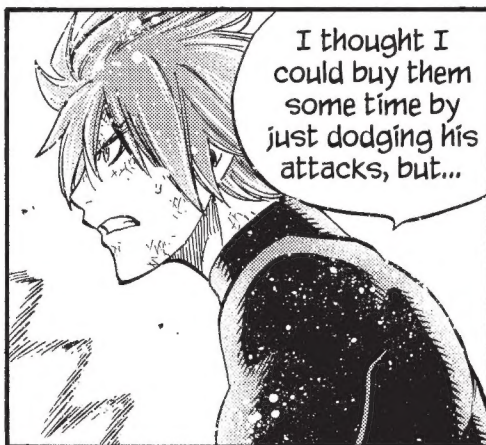

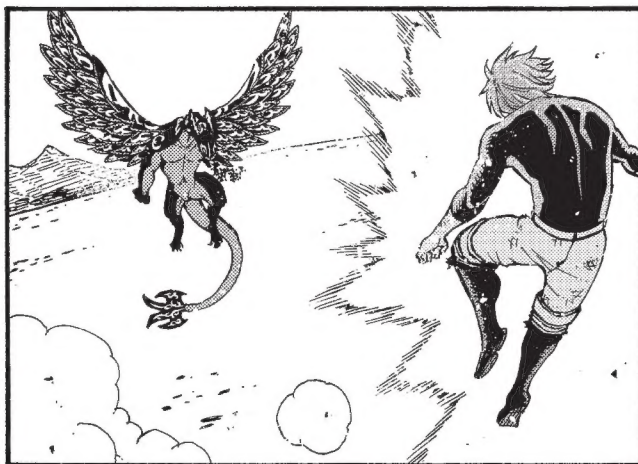

**STORY
THUS
FAR.**

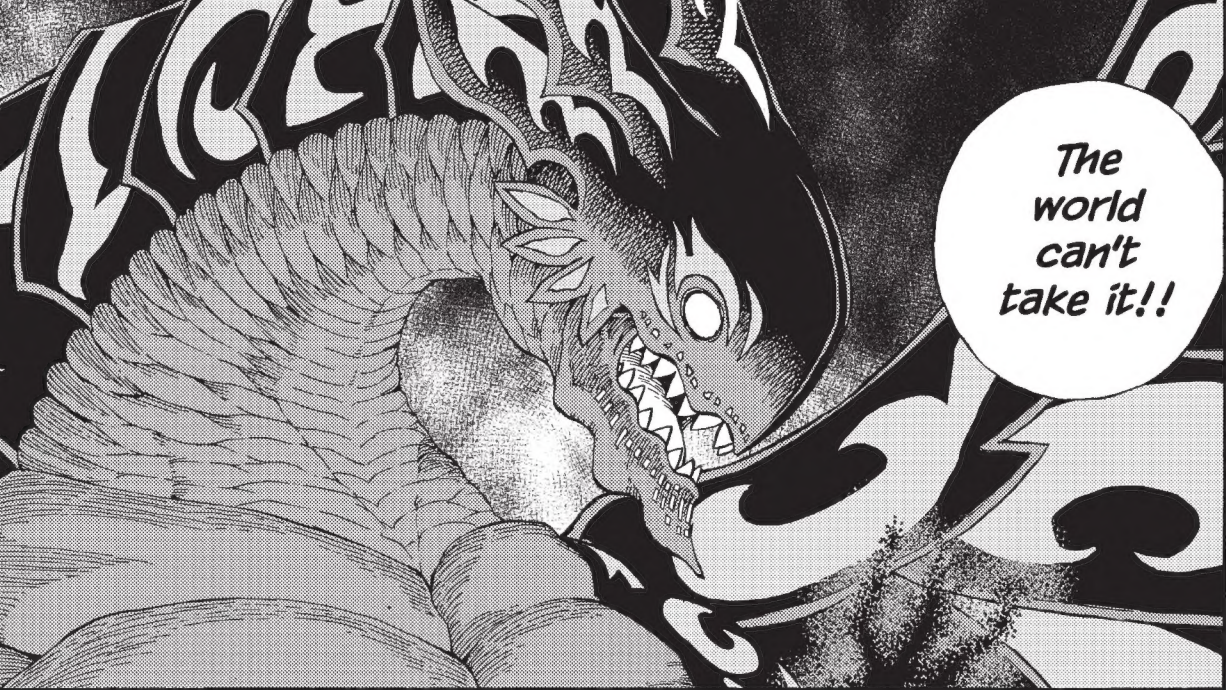

Zeref has sucked out Mavis's magic, Fairy Heart, and gained unlimited magic power for himself! His ultimate goal is to use the magic Neo Eclipse to turn back time 400 years so he can re-live his life. Knowing that Neo Eclipse would obliterate the world he lives in, Natsu puts everything he has into stopping Zeref. But, unable to stand against his older brother at the pinnacle of magic power, Natsu suffers a mortal wound. Meanwhile, Erza's group is fighting a desperate, bloody battle against the magic-eating dragon, Acnologia. This story has entered its final stage!!

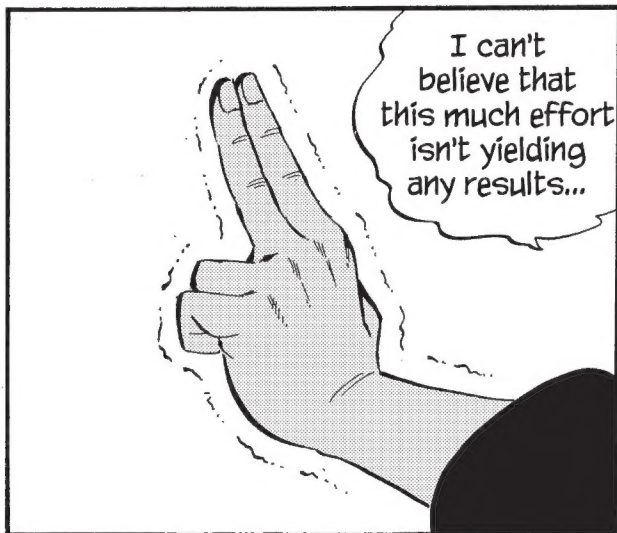

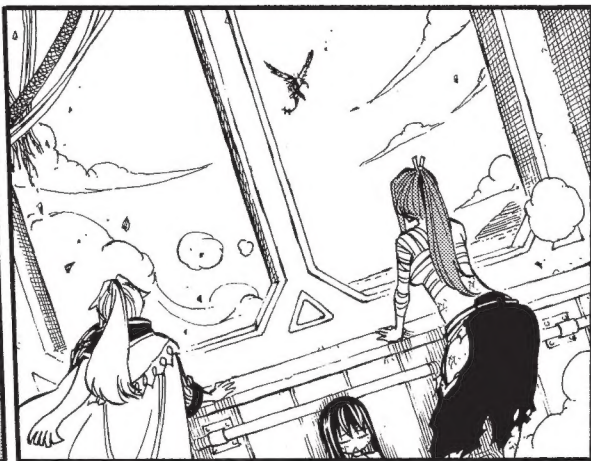

*The
world
can't
take it!!*

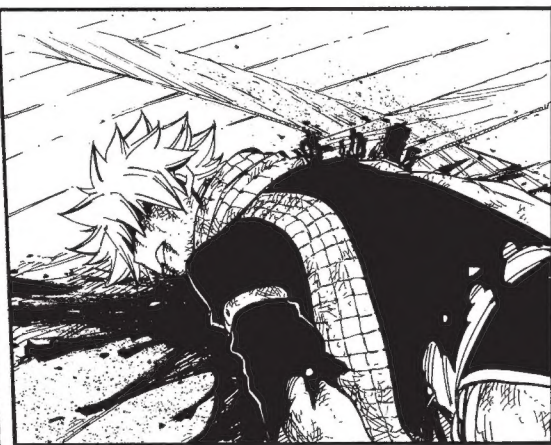

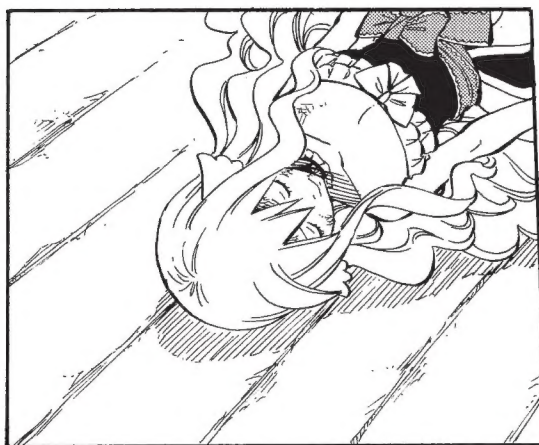

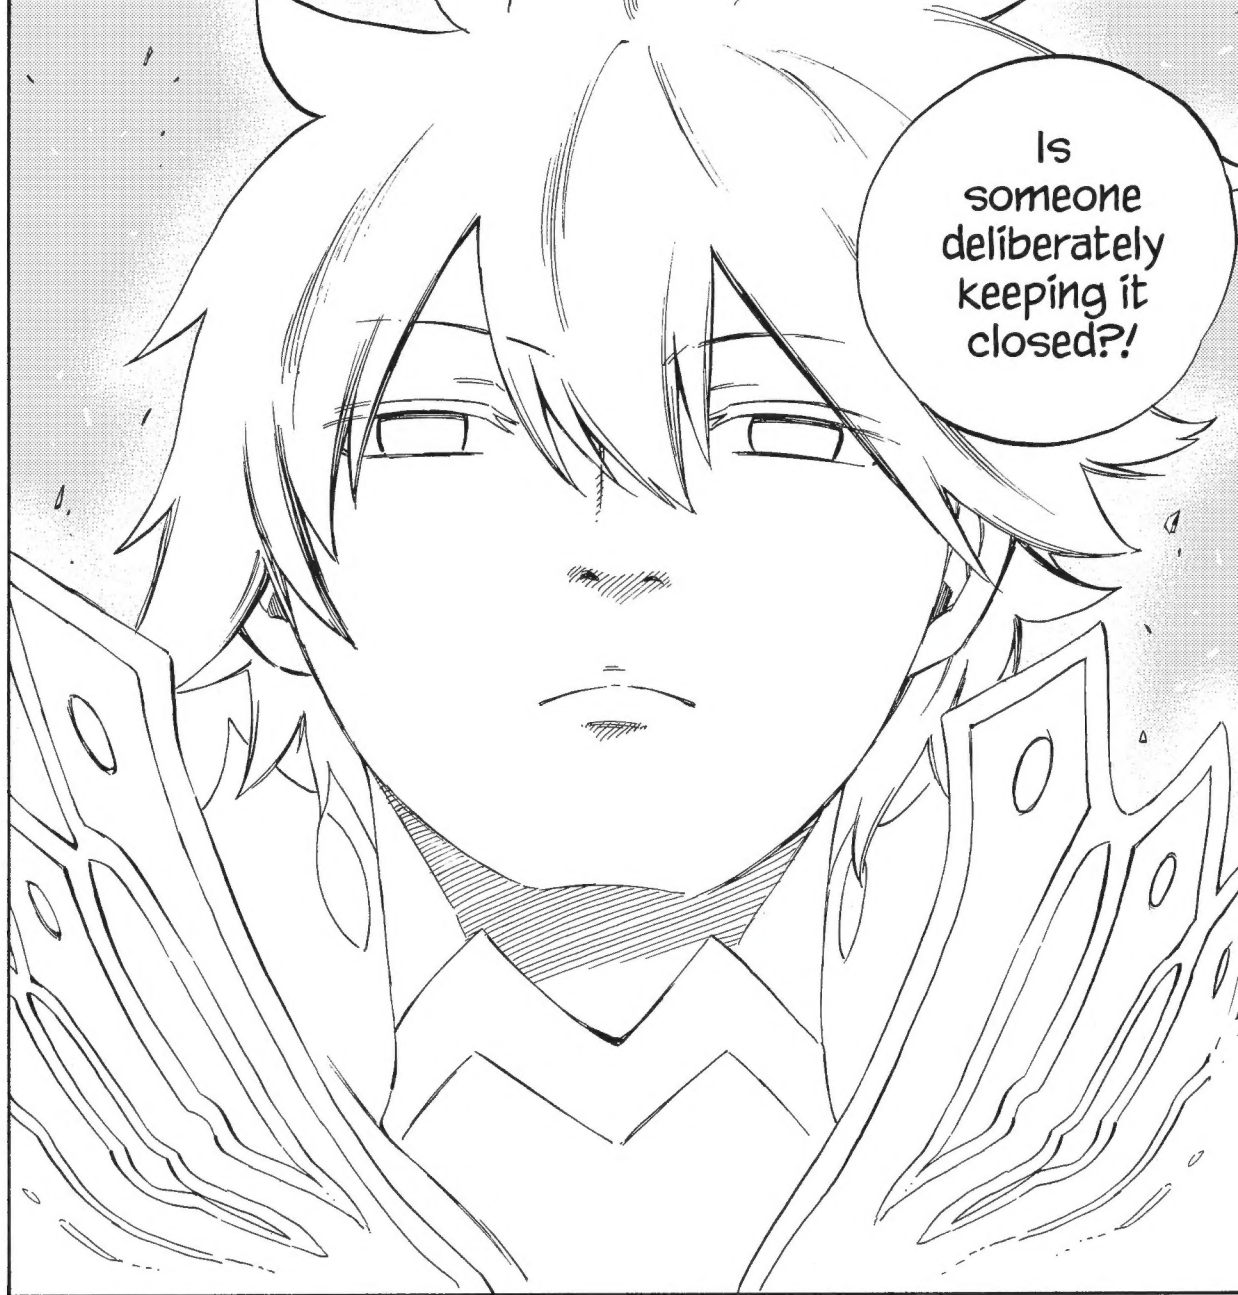

Can't you
get the space
between time
open yet?

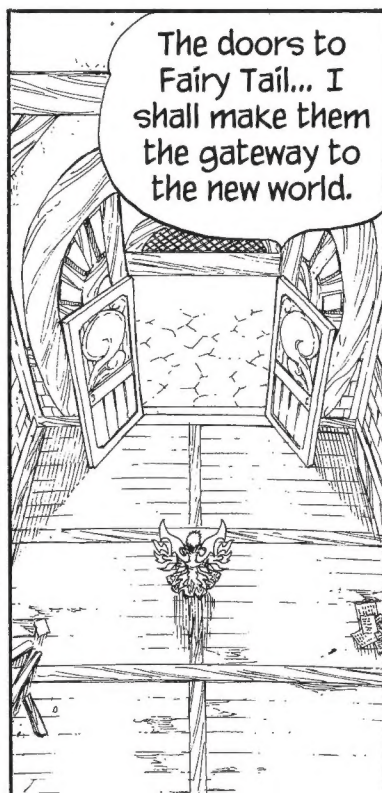

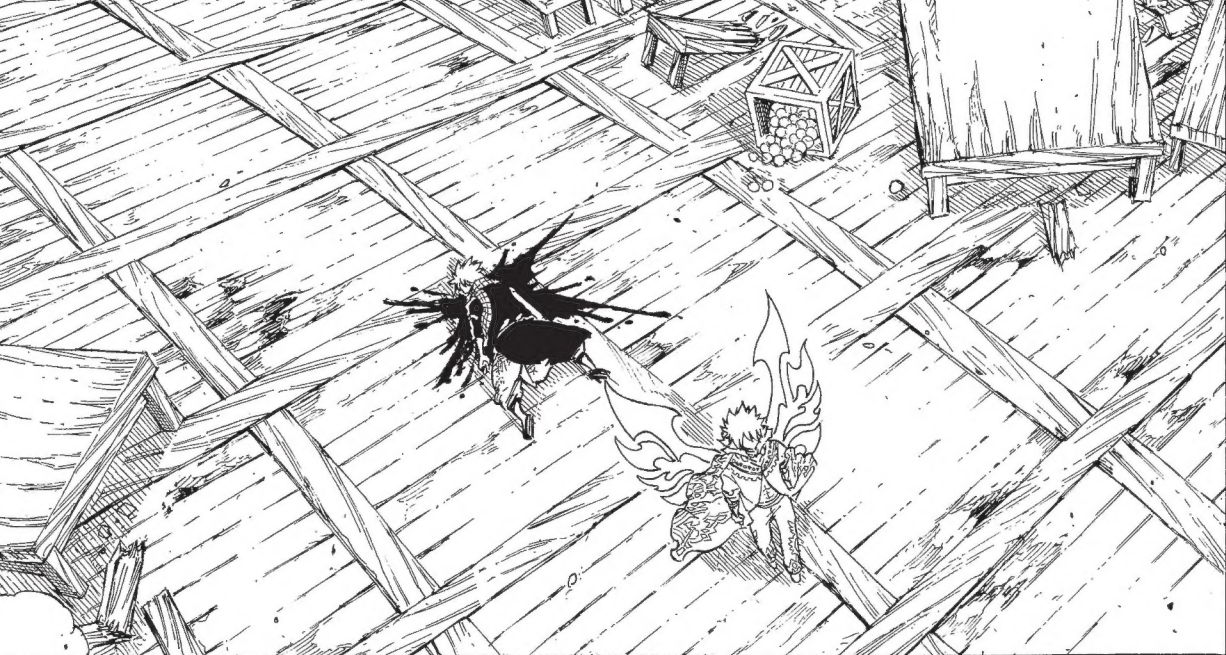

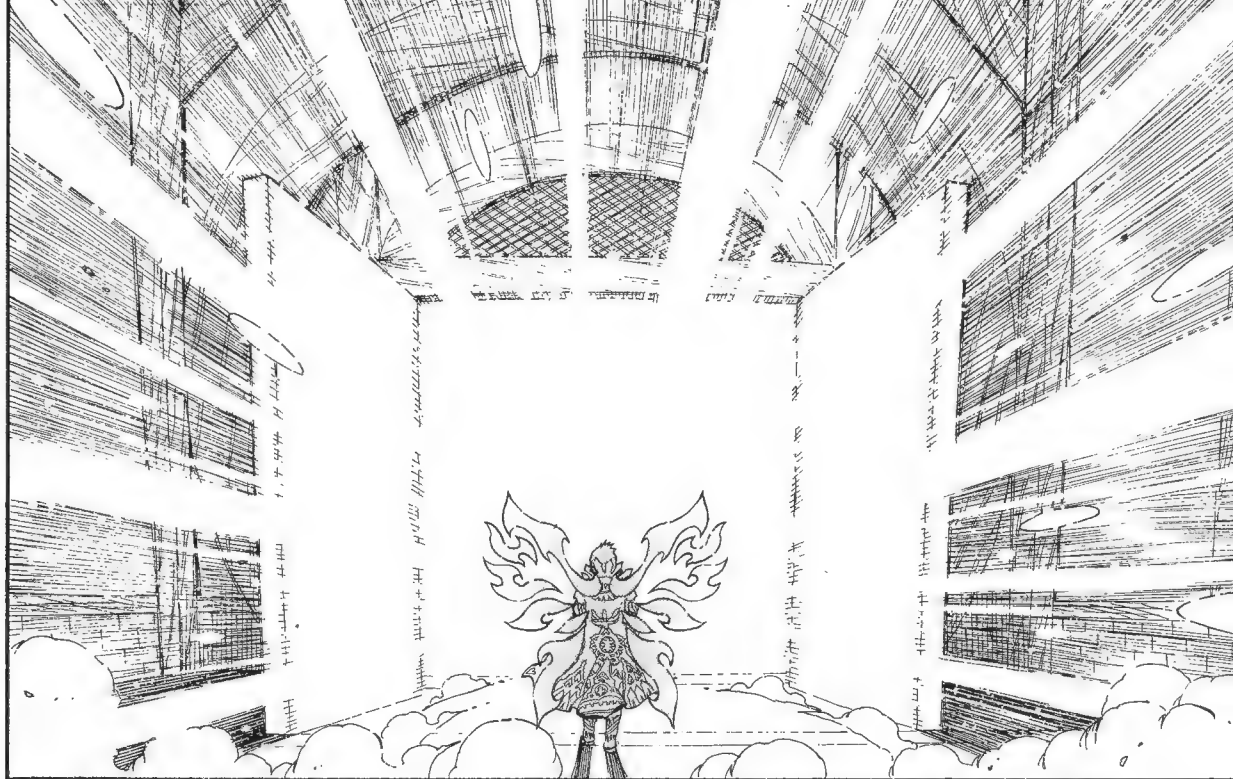

I can't
believe that
this much effort
isn't yielding
any results...

.....

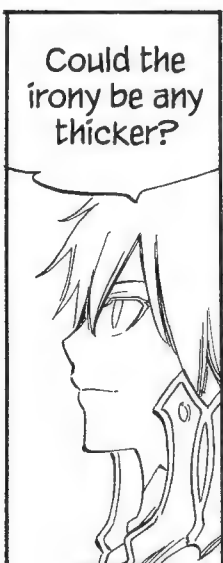

...and my new world will take its place.

The instant I pass through these doors...

...this world will crumble away...

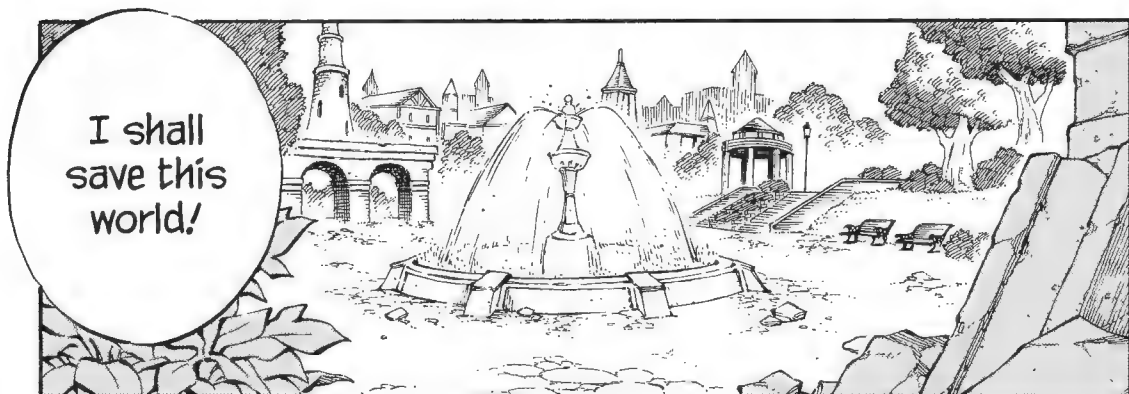

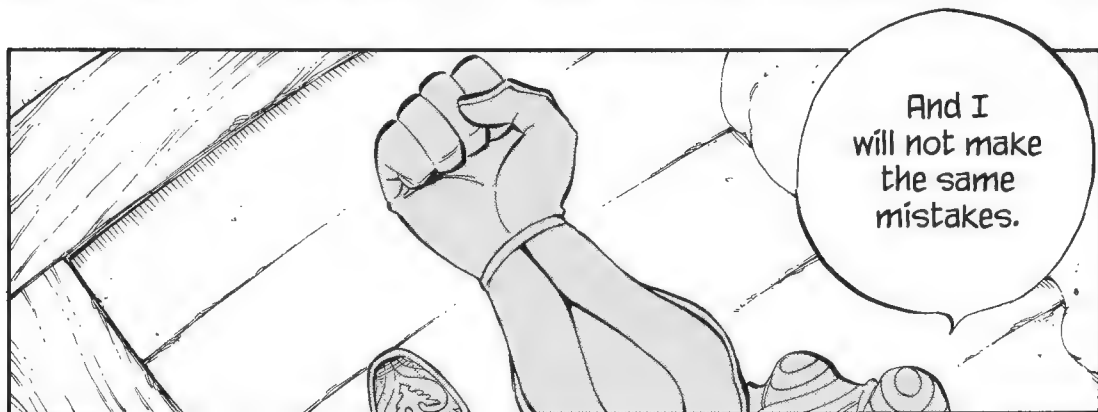

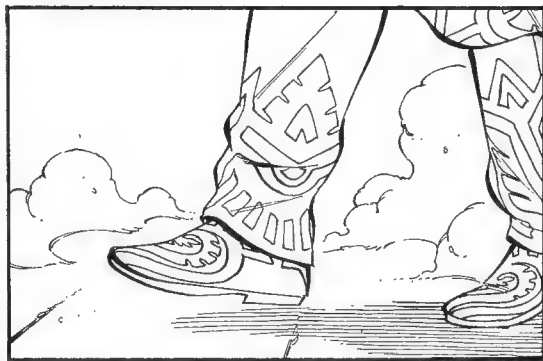

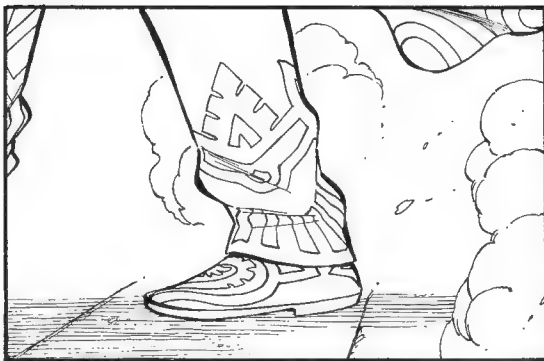

Could the irony be any thicker?

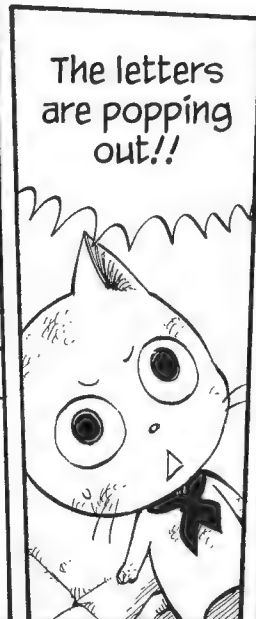

And now they will be both the end and the beginning of worlds.

The Fairy Tail doors have seen countless adventurers depart...and return home.

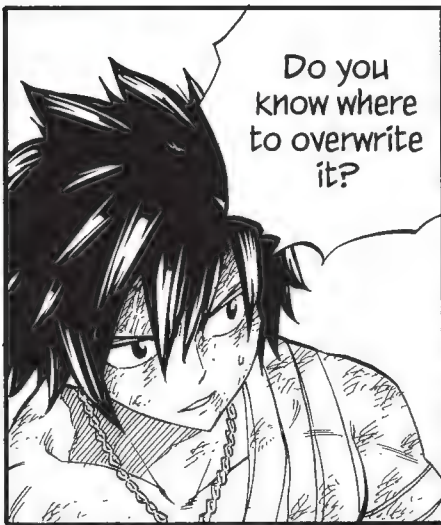

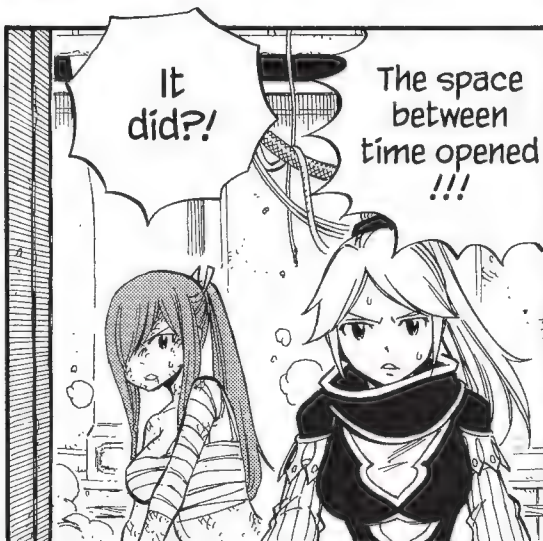

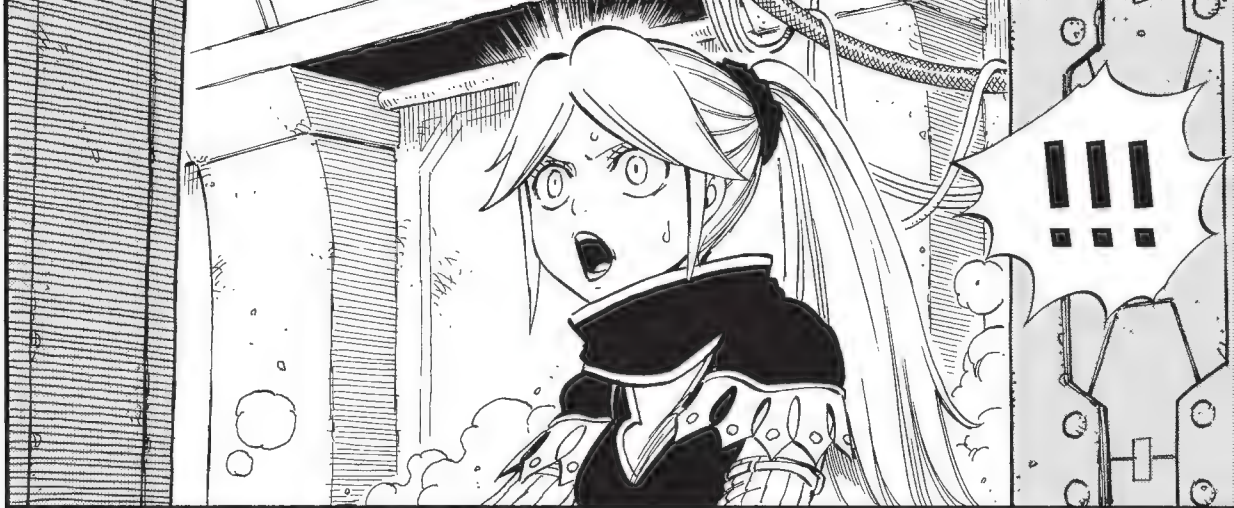

Did
something
happen to
Natsu?

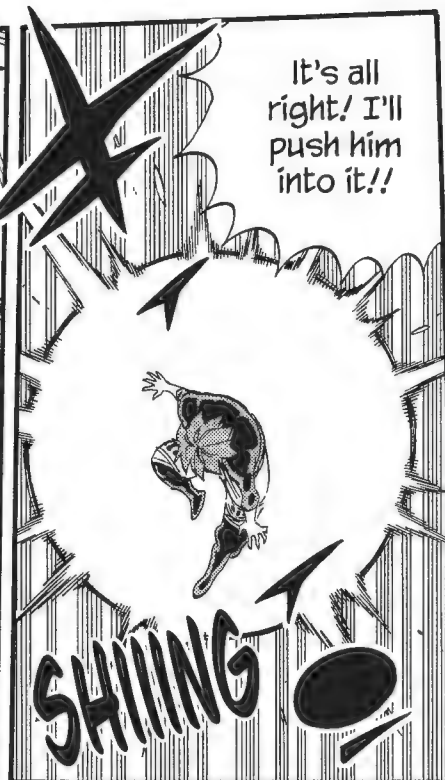

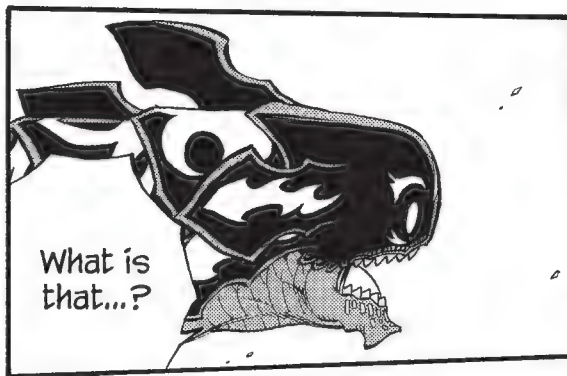

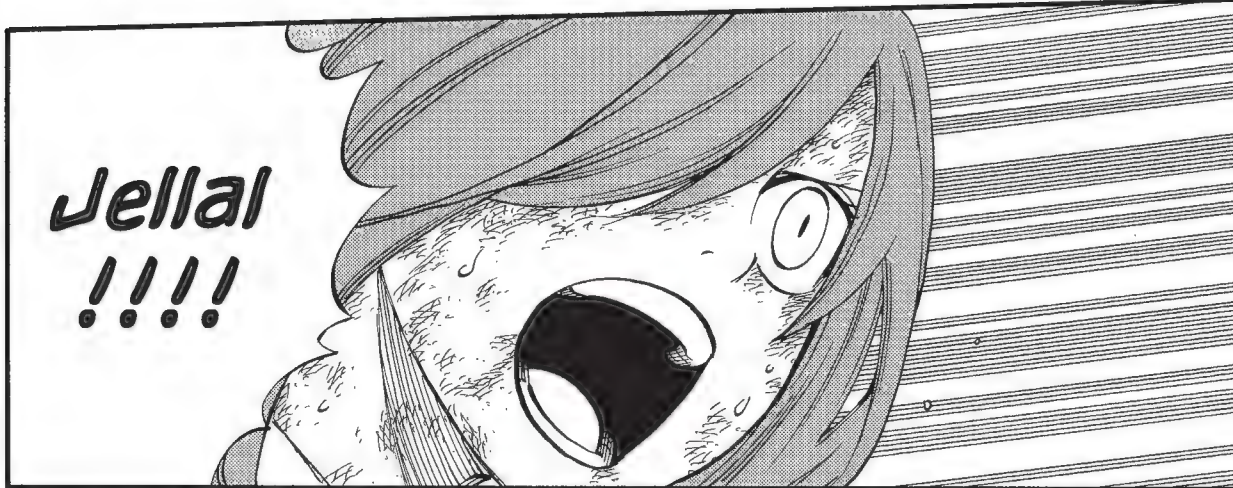

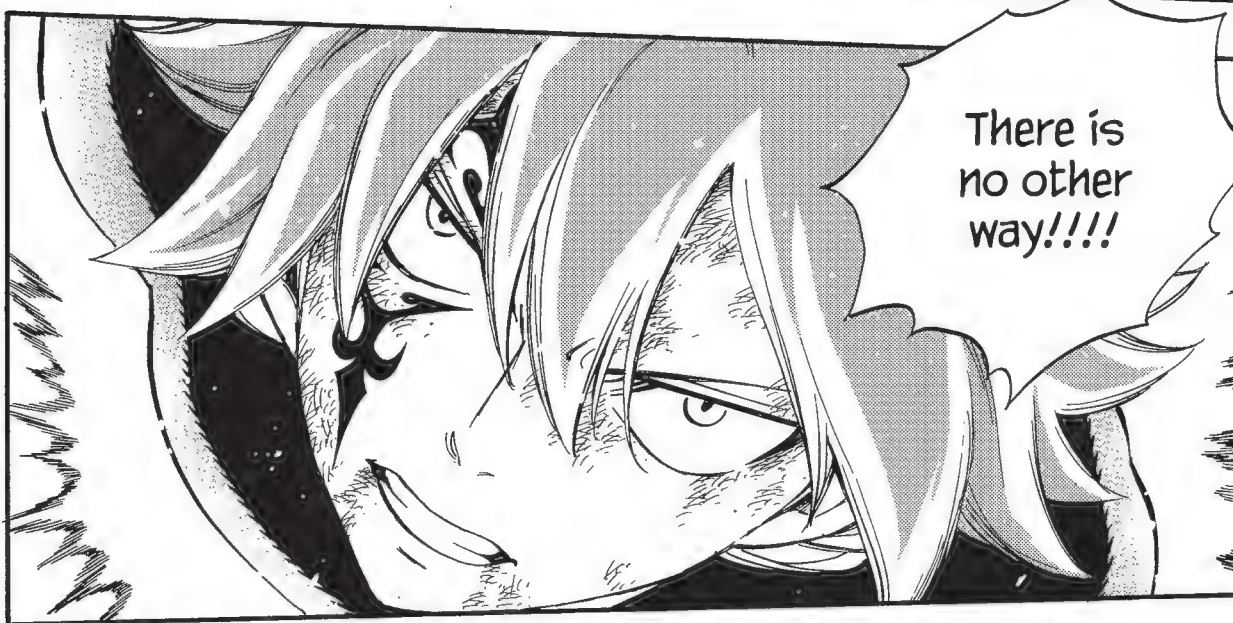

The letters
are popping
out!!

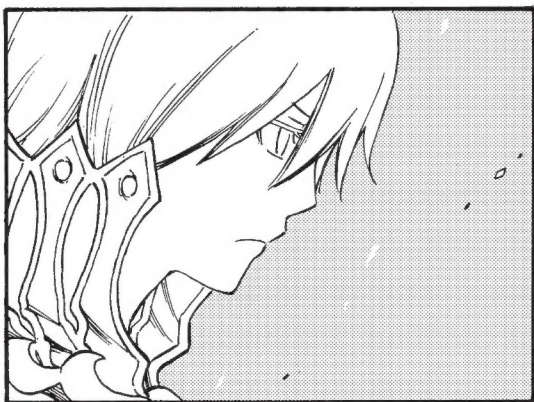

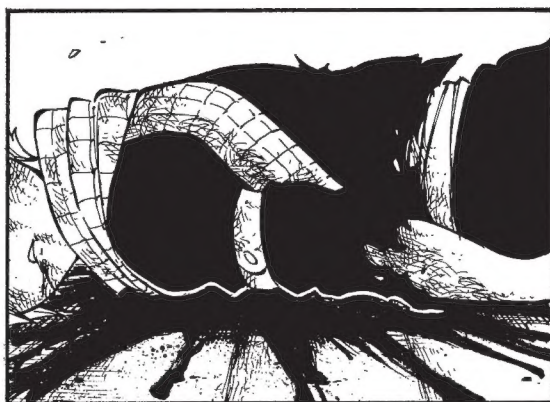

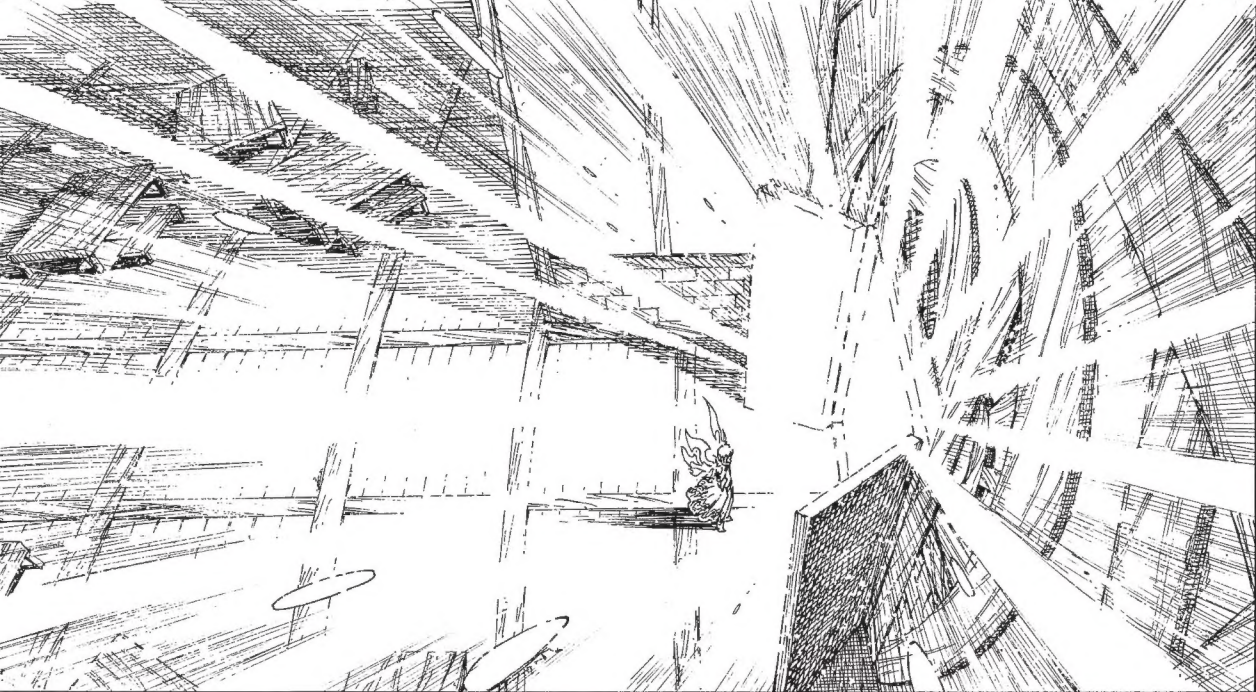

When ya
go through
those doors,
ya make a
vow.

A vow
that you're
gonna come
back!

There's
something
that
Gramps
always
said...

I offer
my thanks
to this
world.

*Swear
that you're
comin' back
alive!!!!*

*Make
the vow
!!!!*
